

## February 2012 Newsletter

Hi Everyone,

Hoping you're all well. February has come up so quick hasn't it.

I've been researching again & have just added another new product called "Nude By Nature". I've been trialling this on myself for a few weeks now & really love it. It's so lite to wear & really is easy to use once you know a few tips, which of course I'm happy to share.

My new Gel Polish range called "Shellac" has also been giving fantastic results. It's great to see people getting the chance to have great looking nails & grow them at the same time. I've left the little talk from last month in this newsletter for the people who may not have seen it in January.

Come in & try them both, I'm sure you'll love em too ☺ Talk soon, Jennie  
PS: I'm running a great special for February, check em out below.

### WHAT'S NEW – NUDE BY NATURE Mineral MakeUp & Skincare

This is a fantastic Australian made mineral make up & skin care range.

It contains no parabens or toxic chemicals, and isn't tested on animals which is great news for us & our furry friends ☺

Some of you may have seen this product on TV. The great thing is, instead of having to join up for the whole range as advertised on TV, you can now buy individual items or some really cool starter kits from me.

Pop in or check out the complete listing on my website.

Postage can also be arranged for a small charge if you can't make it in ☺

### WHAT'S NEW – SHELLAC GEL POLISH

Gosh I wish I'd come across this product earlier. I've been wearing it for a month now & can't fault it at all. Originally I thought it was just another soak off gel. But it's not, hence my latest investment. It has patent pending "uv3" technology. What's great about this is that it's truly a no file system, that can be easily soaked off. Meaning there's no need to rough up the natural nail plate prior to any applications, as with my previous system. Plus the colour will last at least 14 days if not longer before reapplication is needed. I know, I'm like a kid with a new toy....
